Łukasz Senator
Curriculum vitae

Front-end developer /webaddicts.pl

~$experience

I have been working as a webdesigner/webdeveloper since 2010.
In 2015 I started to work full-time as a front-end developer.
During my career I had a pleasure to work for companies such as:

expander
(since 2017)

Development and maintenance of internal web applications.

feedink
(14 months-2015/2017)

Development of front-end of web application used to manage products feed, from scratch.

brandoriented
(2 months in 2015)

Code refactoring of web application used to manage social media marketing.

algolytics
(7 months in 2015)

Front-end development of the company's product - ABM (automatic business modeler). It's a tool which automatically builds predictive models.
